The madersimed nould respectfulls solicit the attestion of deciders in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to uny other numed in Ohio, for Grate, Blackamithing, Machiners, or Domestic purposes is and for Steam purposes, is suparior to any except Brier Hill. It is peculiarly well adapted to Shupang, as its extreme hardness renderst copable or begang non-amount of handling, without the safe if can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectivally solicit orders, condident that a trial is only necessary to convince any of the truth of the above assertion.

MILWAURBE AND JANESVILLE.—The Janesville Standard has an article urging the work upon the railroad connecting that place with Milwaukee.— It is a subject which deserves immediate atten-

tion, and we hope is receiving all the consideration which it merits. The Standard says: which it merits. The Standard says:

Perhaps the arrangement for bringing the road here is being made, and the managers thereof are giving themselves a great deal of credit for their prudence in keeping the matter all to themselves produced in the programment of the production of the product o

It any tanks mises it is due to the people, that they should know his mises it is due to the people, that they should know to an eastern market long enough, and until they have one, the circumstances of a majority of them will continue to become more and more straightened every day. Eastern merchants say to then, bring on your produce where we can get hold of it, and we will purchase it of you. But hold of it, and we will purchase it of you. But this by ordinary land earnings they cannot do and have a surplus left after paying expenses.—
Heretofore, when produce in eastern markets bore a good price, fifty or sixty miles transportation in that way could be afforded, and leave a handsome profit.

The Standard thinks just as we do about the subject. Unless the most imperative reasons exist for making there matters secret, we believe it to be the best policy to acquaint the public with their progress. They are all interested in what is doing—more interested than the parties who hold the charter and the stock, and we hope to hear and be able to announce to them shortly that something is doing, and what is doing, to accomplish the connection by railroad of Janesville with our city. We copy the closing paragraphs of the Standard's article :

Standard's article:

If there is any prospect of bringing this road here in a reasonable length of time, the community should be made aware of the fact, and those who are intending to move in the natter should be about it, for delays are sometimes dangerous.

The R. R. V. U. Railroad cannot well be brought here from Chicago, where like men of sense the company is about to commence operations, before the summer of 1853; but with proper effort and management, there is no difficulty in running the Mitwaukee road here by the coming fall.

Call out your delegates, then, gentlemen, and put in execution this important work; and let the people know of a certainty that "better days are coming."

We regret very much to find the following paragraph in last evening's Wisconsin:-

paragraph in last evening's Wisconsin:—

The Express Nusance.—Our merchants justly complain that they have been deceived is to the time of getting their goods from New York. One merchant informs us that he had contracted with the American Express Company to bring some light goods to this city—agreeing to pay an exception price for freight—footleen days have clapsed and they have not made their appearance, and he will thus loss the sale of certain seasonable goods, while he has to pay their high charges for freight. Many other merchants are in the same fix. This is hardly the fair thing.

It is straped indeed to find a Milwaukee press

It is strange indeed to find a Milwaukee press calling the American Express Company a " nuisance"-a Company which has labored earnestly, faithfully, and successfully for a long time, to render to the public its peculiar service. Surely, the Wisconsin must have been very much misinformed or have very little considered its language. We venture to say that no such instance has occurred as that paper cites. Doubtless, the reference intended was to some of the New York & Eric Rail Road Express Freight lines; but if such a delay occurred with them-and it is very likely-it is because Dunkirk harbor was closed up by the

ice, and the freight stopped there. The American Express Company delivered packages of freight here on Thursday evening in fast time is everything to them. They have fairly won it, and should have the credit of it.

THE MARY—It is the opinion of those who have experience, that the mails in and to this State are more irregular than they have been in ten years, while the facilities for carrying the mails have increased at least 100 per cent, and yet we sae worse off than then.—Wisconsin. It is a true bill. When we get three or four more railroads on the route, we shall probably get

One thing we want ;--and that is, to have a faithful mail agent travel the route from New York, and Buffalo hitherto for a short time, and see where the letters and papers are stopped on the way. We know that they are delayed at Chicago, and that without a shadow of reason-but where

else we can't tell. Taking the Back Track.

On the 7th, the Free Democrat published Pronunciamento, declaring that the prices fixed by the Common Council were not enough, and closing thus:

"We shall charge a fair price for our services— such as by law, custom and precedent we are justly entitled to."

On the 13th, the Common Council took into consideration the pronunciamento, and was about ball disposed to consider it a resignation—whereupon, in yesterday's Free Democrat, appears another document, stating that it did not mean to resign, and winding up as follows :-

We give notice, therefore, that we have neither resigned our office, nor refused to discharge its duties, nor have we refused to accept the compensation fixed by the ordinance, if the Council shall refuse to increase it, and if we are not fairly entirefuse to increase it, and if we are a tled to a higher price for our work. The first notice, you see, was to be understood

" in a Pickwickian sense."

YANKEE ENTERPRISE.—The citizens of Rou France, have been holding a great glorification over Capt. Billings, a Yankee commander of the good Yankee ship Mary Anna, who has lately taken his ship up the river Seino as far as their

It is declared that the Blary Anna is "the first sca-going vessel which ever went so far up the Billings, as a sort of Columbus, with admiration and rapture, making him valuable presents, striking needals to commemorate his landing, buying his load of cotton and ordering a second one, to be It cal brought to them in the same novel manner, and placing a steam-tug at his disposal, to tow his ship, free of cost, back to Havre.

It was no great feat seemingly, but it is strange enough that the Frenchmen never have found out that ships could sail up the Seine to Rouen before

MILWAVERE AND MISSISSIPPI RAILBOAD.-The last Madison Argus calls carnestly upon the Mil-waukee and Mississippi Rail Road Company, to take advantage of the present easy state of the money market and push ahead with their enterprise as rapidly as possible. The Argus urges the importance of speedily completing the line to Madison and the Wisconsin River, so as to secure the large and rapidly increasing business growing up with the improvement of that extensive

A SEQUENCE.-The Free Democrat says:-

The unwillingness of that part of the Council apresenting the Sentinel's interests to refer the representing the Sentinel's interests to refer the question to the City Attorney, de de de, -shows some dreadful things.

Considering that the motion which prevailed to ranke such reference, was made by Ald. Prentiss, who according to the Free Democrat, " represent the Sentinel's interest"-(though that is all gammon,)—we don't exactly see the propriety of the conclusion.

- 11 m What has Congress Done ?

Nobody knows and nobody in particular scems to care. Over five months of the present session has already been spent and yet we learn of nothing important that it has done. It is not supposed of the Representatives of this hard-working, go a head Republic—are totally unemployed in public buisineed—morely amusing themselves at the public expense. But if not, what are they doing? What laws have they reade, harring one making Bounty Land Warrants assignable, a law that Western interests could well have dispensed with, that are of any moment to the country? In fact, none.—Po'esi Republican.

Congress.—There is not a Press, from Maine to California, which oven affects to justify the dilatory action of congress. It has been nearly six months in session, and yet literally nothing has been done. In fact, Congress is generally spoken of as a nuisance.—Wisconsin.

Here are two "favorable allusious" to our hardworking and well-behaved Congress from "democratic" sources. Whether they will have any more weight with that indefatigable body than the compliments of the Whig Press, we cannot say. It is certainly to be hoped, that these busy bees will take a holiday during the summer months, and not wear themselves out prematurely by over-

When a Rail Road can fulfil all that is required when a Rail Road can full all that is equally of them in sections 8 and 9, their bonds and obligations will be perfectly good. The feeling at present seems to be in favor of Banks, and we have no doubt but what this Law will be adopted

SHEBOYGAN LAKE JOURNAL-We miss the Journal from our table this week. The following advertisement in the Mercury probably exlains the difficulty:

Dissolution.

The Copartnership heretofore existing between F. J. Mills and W. R. Woodbury is this day dissolved, in consequence of the Type upon which the Sheboygan Lake Journal was printed, having been stolen from the office: No person can recipt for the accounts of Mills and Woodbury, and the person that can pay the debts will please step forward.

Extensive Figurace-By the following from he Green Bay Specialor, it will be seen that a very and-ome sum will be realized from the fisheries in that region the current season:

in that region the current season:

Execute of Figur.—We have already stated that Mesers. Albright & Cro-by will ship 1500 or 2000 barrels of Fish to an Eastern market. We learn that the Dopere fishermen continue to have extraordinary good luck, and that they will ship over a thousand barrels to Cleveland slone.—Mesers Peak, Day & Co., inform us that they will ship at least 3000 barrels; so that, we think, it is a very low estimate to say that 6500 barrels of Fish will be exported from Green Bay, within the next two months. At \$5 per barrel, (a very fair estimate,) they will return to this poil, the sum of \$32,500—quite a handsome item.

GEN. Scott's Position.-The following statenent is contained in the last letter of the New York Courier and Enquirer's regular Washington correspondent:

Washington, May 5. Washington, May 5.

It may now be asserted with entire confidence, that Gen. Scott, under no condition of circumstances, will change the ground which he has occupied since his name has been brought forward conspicuously in connection with the Presidency, and will write no letter, oncerning public questions, unless the Whig Convention should think proper to offer the nomination. This is understood to be the finality of his position, as declared by his most intimate and accredited friends, and upon the authority of undoubted assurance.

The bird flew off as soon as the message was taken from its neck. Floyd's List reports the same vessel as having arrived at Havre from Martinique on the 31st March, just two days after the above message was dispatched

Wisconsin Towns.—A correspondent of the Galena Advertiser, who has just returned from the Upper Mississippi, makes the following brief notes of some of our Wisconsin towns:-

La Crosse, has increased in population to 5 or 600 and will likely double, this season. Mr. Symington, from Ohio, will build this season. a large steam Saw Mill. Several new stones have opened, and all branches of business appear prospered. us.

HRH WATER-The river has been high all this Spring and for the last two or three days has been within a few inches of the highest water mark. All through our State the streams are very much swollen, the damage from the freshets has been inconsiderable.

THE METHODISTS VS. MESMERISM.—The Metholist Conference at Boston on the 7th instant voted by Ayes 110 to mays 37, to confirm the action of the Troy Conference in expelling the Rev. Ezra Sprague, on various charges, including one that supported and practised Mesmerism.

GENERAL RAILROAD LAW-INDIANA -- A general railroad law has passed the lower House of the Indiana Legislature; by a vote of 61 to 23,-It embraces a provision that no roads shall be built, under it, on routes heretofore rejected .-There is no doubt of its passage by the Senate.

At the last sitting of the Circuit Court fo Rock County, Judge Whiton decided that the jair was a nuisance and must be removed within sixty lays. The Standard says that the Court House will also have to be removed.

Messrs. Arpin and Barthe, proprietors of the N. Y. Courier des Etats Unis, have dissolved NEW YORK DELEGATES TO BALTIMORE. - The partnership, being unable to agree in regard to the general course of the paper.

We publish to-day an important law which will have the effect of driving a vast amount of local business out of the Legislature into the local boards where it properly belongs. 42 to 46 hours.

In our rambling up north, we were gratified to find the citizens very warmly disposed in favor of the Bank Law, as it now stands, with the provision making rail road mortgage bonds a basis, incorporated in it. We are fully persuaded that the adoption of this provision has much increased the popularity of, and won friends to the bill. So far as the northern portion of the State is concerned, we shall expect to see the bill adopted by a larger majority than was east in favor of banks at the integrand election.

The City fathers have hold sev eral consultations over it and prescribed various remedies, but all to no purpose. It is evidently past cure. This being the case, it would be an act of mercy, on the part of our Common Council, to put it out of pain at once. Such a faithful old drudge as it is, should not be suffered to linger on, to its own and the public torment, till it drops off by inches. Washington, May 8.

It is stated that recent letter of Chevalier Hulseman will shortly be communicated to Congress. Its centent's are a courteous farewell to the President, complimenting him upon the friendly relations always existing between them, but intimating that the conduct of the diplomatic relations of Secretary Webster, especially as regards Austria and himself as her high representative, had not been of a character to commend itself to his imperial majesty, and was wanting in the attributes on neutrality and domity had always heretofore marked the relations between the two Governments.

The accident on the Rome and Watertown Railroad this morning was as follows:

The hand-car was running south when it came in collision with the freight train going north, and four of the young ladies were instantly killed. The head of one was completely severed from the body, and throwe a distance of two rods from it. The limbs of two others were severed from their bodies, and the fourth was reserved from their bodies, and the fourth was reserved from their bodies, and the fourth was freedfully crushed. The hand car was not thrown from the track.

Miss Pease of Pierpont Manor, and a sister of J. C. Wright of Eswego, have been named as killed.

WELLS & HILL. Milwaukee, Wis, May 1, 1852. Graefenberg Medicines

AS popular medicines, prepared carefully and selentifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, genuine, and free from Humbug, intended as much to care as to self. When once used, they are universally relied upon, and no Family should be without these truly valuable shis to Health. In many instances the regular faculty recommend and use them, such is their force over the prejudices of those we generally opposed to the circulation of Foreign and Strictly abde by its directions in onliner cases, is needed by those who own the Granfenberg Manual of Health, and strictly abde by its directions in the use of the medicinic ation of certificates, which we have of the most flattering description atway sopen for the inspection of the incredutors. We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAFFENBERG SARSAPARILLA, is purely togetable, no bey bottle humbug, or pleasant drink, but as it should be, a Medicine of the greatest power in promoting an entire cleance in the system, by randicing those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAFFENBERG DYSENYERY SYRUP.—Public apprehence in the system, by tradicing those incurable disease in man.

impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has samped upon it the claracter of perfect. It has checked life ratages of Choiera in its last stages, and to bovel complaints it has no equals.

THE GRAEFENBERG VEGETABLE FILLS, are particularly valuable for the prevention and cure of Freezi in general. They are the prevention and cure of Freezi in general. They are the prevention and surely and in connection with our Health Bitters, and a certain and appeady cure for the Peter and Ague. The Bitters have a wonderful effect in insignrating a debilitated system. THE GRAEFENBERG GREEN MIT ONTMENT.—In reducing influmation, healing burns, bruises, and all injuries to the body, we can confidently recommend this sake to all as being most efficacious. In the Mineral Region of our State its merits are unitersally appreciated.

Region of our State its merits are unitereasty appreciated.

THE GRAEFENBERG IYE LOTION—An unpretending article, but one which meets with large sales in the
West, and has been the humble means of relieving thourands from intolerable pain arraing from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON—
This is perhaps the most valuable medicine of this Company, Insanuch as it reaches eases despaired of by the
most scientific physicians. For Prolapus Unri, and all
complaints incident to Females, it will be found a safe
and speedy remedy. Let no afflicted xoman be deterred
by deheacy or prejudice from ging far afar trial. Inquire of the agent for the pampilet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILD'S
PANACEA, &c., are all invaluable remedles, directions
for which and all the medicines are attached to each.

Another Scientific Worder! DR. J. S. HOUGHTON'S GREAT DYSPERSIA CURER!

THE TRUE DIGESTIVE FLUID, GASTRIO JUICE

Physiological Chemist, by J. S. Hougston, M. D., Philadelphila, Pa.

This is a truly wonderful "remedy for Indigestion, Dyspensia, Jundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastrio Julice.

127 Half a traspoonful of Parans, influed in water will digest or disastic Julice. Promise of Roast Beef in about two hours, out of the stomach.

Parans is the chief clement, or Great Digestive Principle of the Gastric Julice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Soumach and Insteadness. It is extracted from the Digestive Soumach of the Ox, thus forming an Artificial Digestive Soumach of the Ox, thus forming an Artificial Digestive Field, precisely like the natural Gastric Julice in its Chemical power, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains analysis of Indigestion and Dyspeptia are removed, just as they would be by a heafthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Ernachtica, Nevious Deckins, and Dyspeption of Debility, Ernachtica, Nevious heafter, and Dyspeption, The Scientific Evidence upon which it is based, is in the highest degree Curious and Remainable.

The above I found true in every respect, as to the roof of my house, corered with the same tile, invented by Mr. irracide.

AUGUST KRUG.

Brewer, Chestmut 11, 2nd ward.

Brewer, Chestmurst, 2nd ward.

The undersigned, linving carefully examined the pressed roofing Tiles, invented by Mr. Graessle, have found them perfectly nusvering the purpose intended. Tileft practical and sagnitude construction recommend this thind of Tile, not only as a fire-proof and perfectly unster-proof covering, but above all to it dournallity. The ridges and chancels not only exclude the entessing of suow or rain-water, but by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Grassale's method of burning the Tiles, deprives them of the injurious tendency to alword water, making them in this way durable t and joining to the above another virtue, vir, that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roof-ing Tile as an excellent and valuable material.
